i thought we said Melissa Kaps for EOC and Patrick Kelly as a reach back resource. Ross sent an e mail to Dana Tulis. Let me know if you need more.

Does anyone know if we sent them a contact? Would this be MRWMD or PIID? Or maybe even Comms?

Subject: Request to staff the HQ EOC for Abandoned Mine Release into Animas River today

Hi folks! The Animas River release is now impacting Regions 6, 8 and 9. As a result, we

are activating the HQEOC to help with coordination on messaging (PI0), data review and planning (OW, OSWER, ORD), congressional outreach (OCIR), claims (OECA) and legal issues (OGC). Can each of your affected offices, please provide us with at least one staff contact for the HQEOC, who can also reach back to others in your office as needed. At this time, we are thinking of a small staff (10 to 15 staff) , to support the Unified Command in Durango. Our most senior Agency leaders are involved with this response and we appreciate your support. Please send your list of folks to Josh Woodyard and myself today. Thanks so much for your support.
